

LifeTime meets industry

LifeTime meets industry **Basel, 31 October 2019**

LOCATION: Canteen Building, Novartis Klybeck Areal, Basel Switzerland

ORGANIZERS: LifeTime WP7 leaders: Joachim Schulze, Jan Ellenberg, Susan Gasser; industry partners: Salah-Dine Chibout, Jonathan Moggs

CONTACT: LifeTime industry and innovation manager: Marie Vidal, marie.vidal@mdc-berlin.de

AIM: LifeTime partners invite you to get involved in one of the key tasks of the LifeTime preparatory year: defining clear and efficient paths towards the development of new products and services and their adoption into daily use in medicine, healthcare and the life sciences.

This event is not only the occasion to contribute to the development of 1) the LifeTime industry strategy: strategic engagement plan for industry partners, major ecosystem players and relevant industry associations defining important collaboration platforms (e.g. formal consortia, co-location of research, networking, tracking of technologies, etc.) with different industry sectors, geographic areas, enterprise sizes and types of interactions

2) the LifeTime innovation framework: a framework for innovative ways of interacting and sharing risk between stakeholders, supporting public/private partnerships and business creation, but also, the opportunity to provide crucial input to the LifeTime Roadmap and formulate recommendations for future funding frameworks supporting academia/industry collaborations within Horizon Europe.

OUTCOME: A strategy document outlining the alignment of LifeTime vision with the interests of various industry sectors and how-to best support biomedical research and innovation in Europe will be prepared and published.

CONTENT: The meeting includes detailed introductions of the four Science & Technology work packages of LifeTime and their industry related goals and plans. There will also be a presentation of the IMI2.0 evolution and the current status of the IHI strategic agenda.

Over 100 industry representatives are invited.

If you join the event, be prepared to discuss and present your interest in and ideas for LifeTime to other participants in an open and informal setting. We will have several parallel sessions for each sector with a programme that is set on the day of the event following an adaptation of the UnConference format.

EVERYBODY is welcome to present and exchange ideas in the spirit of collaboration and strategy development. We expect this event will generate exciting new ideas and open new avenues for translational research and innovation.

LifeTime meets industry

Agenda

9:00 - 9:30	Registration and coffee	
9:30 -10:30	LifeTime update, meeting objectives & Industry strategy and innovation framework	Coordinators (G. Almouzni and N. Rajewsky) WP7 (S Gasser); Industry partner (S Chibout)
10:30 -10:45	LifeTime WP3 Single cell multi-omics and imaging	Ido Amit Weizmann Institute of Science
10:45 -11:00	LifeTime WP4 Data science, AI & machine learning	Xosé M Fernández Institut Curie
11:00 -11:30	Coffee break	
11:30 -11:45	LifeTime WP5 Experimental disease models	Giuseppe Testa European Institute of Oncology
11:45 -12:00	LifeTime WP6 LifeTime Launchpad	Peter Lichter German Cancer Research Center (DKFZ)
12:00 - 14:00	Lunch including registration for spontaneous presentations (Unconference format)	
14:00 - 14:45	Funding opportunities for industry /academia collaborations in Horizon Europe Presentation about IMI2.0 evolution, IHI strategic agenda	Salah-Dine Chibout
14:50 - 16:30	Parallel spontaneous presentations (Unconference format) for 4 different sectors: - multi-omics, single cell technologies - imaging - IT/data science - Pharma/biotech/diagnostics	Presentation from interested industry participants: 10 min each for industry participants including - motivation to participate in Lifetime - preferred model(s) of interaction - input on innovation framework - desired outcome
16:30 - 17:00	Coffee break	
17:00 - 17:30	Wrap up including board statement	Coordinators, WP7 and Board
17:30 - 18:30	Networking Apéro
